Check the Chip Information

August 15th is the annual Check the Chip Day. This event was created by the Animal Hospital Association and the American Veterinary Medical Association with support from other organizations to encourage pet owners to check their pet's microchip information annually and keep it up to date. By doing this yearly, you increase your pet's chances of returning home, if lost!

Feel free to use this form to store your pet's chip information for your records.

Your Pet's Name

Your Pet's Microchip Number

Date of Check

Not sure if your pet's chip is registered? Visit the AAHA Universal Pet Microchip Lookup Tool at petmicrochiplookup.org. To update your pet's registration, you will need your pet's microchip number. If you haven't already created an account with the manufacturer, you will need to do that as well, so that you can access the registration in the future to update the information. Make sure all the information, particularly your phone number(s) and address is correct.
